# ACRONIS CLOUD BACKUP

## PROTECT WHAT MATTERS MOST

Acronis Cloud Backup, brought to you by ServerSage, is your ultimate solution for safeguarding your valuable data. With our advanced technology, you can rest assured that your files, documents, and applications are protected from loss, corruption, and ransomware attacks.

### Key Benefits

#### Comprehensive Protection

Back up everything from individual files to entire systems, including Windows, Mac, Linux, and virtual environments.

#### Advanced Security

Our robust security measures ensure your data is protected against unauthorized access and cyber threats.

#### Easy-to-Use Interface

Our intuitive interface makes it simple to set up, manage, and restore your backups.

#### Flexible Storage Options

Choose from a variety of storage options to suit your needs, including public cloud, private cloud, and hybrid cloud.

#### Fast and Reliable Recovery

Restore your data quickly and easily in case of a disaster or accidental deletion.

## Why Choose ServerSage for Acronis Cloud Backup?

24/7 Monitoring & Support

Tier 4 Certified DC

99.99% Guaranteed Uptime

Anti-Ransomware Protection

Trusted Partner

Seamless Integration

## SAFEGUARD YOUR BUSINESS WITH SECURE ENDPOINT BACKUP

As remote work grows, securing business-critical data has never been more important. ServerSage Endpoint Backup protects your desktop and laptop data from threats such as ransomware, theft, and accidental deletion. Our comprehensive backup solution ensures your data is safe, accessible, and recoverable anytime, anywhere.

### Real-Time Data Protection

Safeguard your data with automated, silent backups that don't disrupt productivity.

### Encryption & Security

Benefit from AES 256-bit encryption to secure data during transit and at rest, ensuring complete protection from breaches.

### Self-Service Recovery

Restore files instantly from any web-enabled device, empowering users to retrieve their data without IT assistance.

### Remote Device Wipe

Remotely lock or wipe lost or stolen devices to prevent unauthorized access.

### Ransomware Protection

Detect anomalies, prevent data loss, and restore from ransomware attacks with ease.

## Why ServerSage?

- Centralized management through an intuitive web-based interface.
- Multi-OS support for Windows, Linux, and macOS.
- Flexible deployment with scalable plans tailored to your business needs.

# MANAGED CLOUD SERVICES

## EXPERTISE ACROSS GCP, AWS, AND AZURE

ServerSage provides comprehensive managed cloud services for businesses, ensuring a seamless experience with Google Cloud Platform (GCP), Amazon Web Services (AWS), and Microsoft Azure. From deployment to optimization, we handle all aspects of cloud management, enabling you to focus on core business activities while maximizing the potential of your cloud infrastructure.

## Why Choose ServerSage for Managed Cloud Services?

### Certified Cloud Experts

Our team of certified professionals brings deep expertise in managing GCP, AWS, and Azure platforms.

### End-to-End Solutions

From initial setup to ongoing management and optimization, we take care of everything.

### Proactive Approach

With continuous monitoring and tailored solutions, we proactively identify and resolve issues before they impact your business.

### Customized for You

With continuous monitoring and tailored solutions, we proactively identify and resolve issues before they impact your business.

# DESKTOP AS A SERVICES

## GET ALL THE RAW PERFORMANCE OF THE SERVER FOR YOUR RESOURCE-INTENSIVE WEBSITES & APPLICATIONS

- ✔ Bank-Level Security
- ✔ 30 Days Rolling Backup
- ✔ Industry Leading Customer Service
- ✔ No Hidden Cost

### Key Features

Powerful Configurations

Quick Provisioning

Server Administration Panel

Additional Storage

Easily Configurable

99.99% uptime

### How Does DaaS Work?

#### Simplified Explanation

- Users access virtual desktops through a thin client device or web browser.
- DaaS provider manages the underlying infrastructure.
- Data and applications are stored in the cloud.

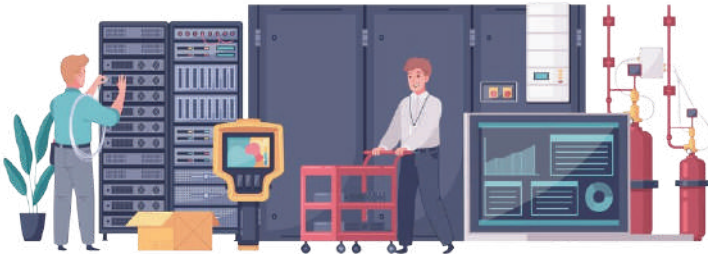

**Centralized Management**  
Easily manage and update desktops remotely.

**BYOD Compatibility**  
Bring Your Own Device for seamless access.

**High Availability**  
Ensure uninterrupted access and business continuity.

DATA CENTER

## Multi-Tenant Colocation Service

World-class colocation services with leading reliability, 100% uptime guarantee, high performance and unmatched efficiency that enables your business to run 24x7 without worries.

### Reasons to Consider Data Center

#### 1] Unmatched Cost

Lowest rack and power charges. SEZ duties and tax benefits, and forex billing.

#### 2] Efficient Power

50MW IT power with 48-hour backup, along with on-site power distribution and generation capability.

#### 3] Dense Network

Presence of all major telcos, Internet Exchanges, Internet Services and dedicated fiber paths

#### 4] Robust Support System

Dedicated office seating spaces, storage rooms, MMRs, and on-site residential stay facilities.

### Features

99.95%  
Guaranteed Uptime
